Task

1. Open the workspace at http://play.appendto.com/hdc-06/edit

2. Write a plugin function that loops over each element in the collection passed to it by selection

3. Set each element's text color to green

4. Attach a click event that alerts 'You clicked me!', and hides the element after it was clicked

5. Now use the plugin on <p> tags, and on <li> tags, <td> tags, etc.

Goal

1. Familiarize yourself with writing a simple jQuery plugin

Reference

1. http://play.appendto.com/hdc-06/edit

Advanced

1. Add one or more parameters to your plugin
